DIVING TUBE LEAKS IN TEST. Salvage Operations on Sunken Submarine F-4 are Held Up.

HONOLULU, T. H., April 3 .- Tested today at a depth of 320 feet, the improvised diving tube which is to be used in the work of raising the suboperations will be held up until the tube can be perfected.

It had been planned to lower a diver in the tube at the spot where the F-4 is believed to be, but the officials would not permit him to descend until the thing very fierce and hateful crept into and mingled itself with the sullenness. How she hated, loathed, detested that ugly little house. She'd never be happy there; she'd never be good tempered there; she'd never try to make it home!

Toward supper time she saw the owner of the little ugly house approaching. She received her ungraciously. But Mrs. Bowen did not seem to notice. She sat down upon a chair and stated her business. She was going to the city to live with a married son, and, though that son lived in an apartment, she maybe could have a window box of flowers. They were the double variety, nearly white and very hardy. Of course, it wouldn't be the same as having them grow in the ground, but it would be better than none at all. Mrs. Bowen spoke rather crossly. Agnes promised. The ungracious-ness of her tone could have passed for wearlness. Moving one's household goods is known to be wearying work. If Mrs. Bowen did not notice anything to take offense at. She thanked Agnes then still sat there, her eyes looking intently at the yard, now being obscured by the gathering night.

Agnes went about her work. Still Mrs. Bowen sat there. Fretfully Agnes wished that she would leave. The children were whimpering. The day had been long and hard for them—harder because of their irritability. They clamored for supper. Jeff was out at the barn feeding the horses. Agnes gave Mrs. Bowen a perfunction invitation to stay for the meal. She declined in an absent voice.

Finally she rose. "I guess you're wondering why I ain't going," she said in some embarrassment, "instead of y staying here pestering you while you're working."
